WORK HISTORY

PRELUDESYS IND PVT LTD | TRAINEE SOFTWARE ENGINEER
July 2022 - March 2023 | Full-time | Chennai, IN
- Worked on a real-time project for 7 months as a **Fullstack Support Developer** for a US-based project named Recovery Assist Platform and helped the team solve **UI issues, Frontend, Backend Databases and Google Analytics.**
- Throughout the project, there was good exposure and hands-on experience with **React JS, Javascript, CSS, Dynamo DB,MUI, and AWS.**
- Trained in **Dynamics 365 Business Central and CRM** as a **Technical Developer Consultant** and wrote well-designed, testable code.
- Leveraged mastery of **React JS, CSS, and JavaScript**, along with strong **problem-solving and communication skills**, to build top-quality code for diverse projects.

BAZARSIDE | FRONTEND DEVELOPER INTERN
Nov 2021 – Dec 2021 | Part-time | Work from Home
- Worked with technologies like **HTML, CSS, JS, Bootstrap, Git, Python, and Django.** for an e-commerce website.
- Applied the skills necessary for building **static, dynamic, and responsive web pages**, designed user interfaces for web pages, and developed them, while demonstrating a strong **work ethic, adaptability, and a collaborative approach** as an intern.

PROJECTS

PORTFOLIO WEBSITE | Project | Source Code
- Designed and developed a dynamic portfolio website utilizing **React.js, SCSS, and Sanity CMS** showcasing my web development expertise.
- Incorporated **Framer Motion** to infuse my portfolio website with captivating animations.
- Created an interactive portfolio website that not only reflects my **web development** proficiency but also underscores my **industry-relevant skills, certifications** and commitment to delivering exceptional digital experiences.

COVID-19 TRACKER WITH REACT JS | Project | Source Code
- Designed and engineered a responsive **real-time COVID-19 tracker** website, employing **React.js, JSX, CSS, Material UI for styling, and Leaflet** for interactive mapping
- Implemented dynamic **line graphs to visualize data trends**, while integrating live updates from the **disease.sh API**.
- This project highlights my proficiency in **web development** and **data visualization**, contributing to a better understanding of the pandemic's impact.

REACT JS YOUTUBE CLONE | Project | Source Code
- Created a YouTube clone project using **React.js, CSS, Bootstrap, and MUI** for a polished and **responsive user interface.**
- Enhanced user experience with **3D React Carousal** and integrated various **third-party packages**, demonstrating my web development skills and adaptability in building engaging web applications.
